## **ESG Disclosure**

Haveli believes that while ESG factors can impact a portfolio company's performance, such ESG factors are just some of a number of factors considered in the overall due diligence and monitoring process and do not by themselves drive the selection or exclusion of a particular investment. ESG is only one of many considerations that Haveli takes into account when making investment decisions, and other considerations can be expected to outweigh ESG considerations. It is also possible that, for various reasons, one or more ESG factors may not be considered, or one or more factors may be considered more than others, in connection with evaluating or monitoring an investment in a portfolio company.

Additionally, it should not be assumed that any ESG initiatives, standards, or metrics described herein will apply to each asset in which Haveli invests or that they have applied to each of Haveli's prior investments. The information provided herein is intended solely to provide an indication of the ESG initiatives and standards that Haveli applies when seeking to evaluate and/or improve the ESG characteristics of an asset as part of the larger goal of maximizing financial returns on investments. Accordingly, it can be expected that certain investments exhibit characteristics that are inconsistent.

There can be no assurance that such investments are or will be profitable (or that any Haveli investments will have similar properties to any such investments made at other firms). Such investments are not representative of all Haveli

investments and are not to be considered a complete list of all investments made by Haveli. PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS, and no representation is being made that any investment or transaction will or is likely to achieve profits or losses similar to those achieved in the past, or that significant losses will be avoided.
